Users will pick up a bike from a self-service docking station and return it to any other station nearest their destination.

The specially designed, heavy-duty bikes will include a one-size fits all design, upright handlebars, wide seats, hand brakes, chain guard, headlights and taillights.

Users will be able to purchase $75 yearly memberships or $7 daily passes, which will allow for unlimited trips up to 30 minutes each. Annual members may enroll online and receive a personal key to unlock bikes from any station.

The system will grow in several steps after the initial launch of about 75 stations. Service boundaries are roughly from 63rd st. to Devon ave. from Lake Michigan to California ave.

Flag Program For Air Quality

The Illinois Partners for Clean Air, in partnership with the Illinois Environmental Protection Agency, are bringing a new program to schools throughout the Chicago metropolitan area.

The Illinois Air Quality Flag Program is an effective system to alert communities of daily air quality. Each day, participating schools will fly a color-coded flag to notify teachers, coaches, and community members of that day's air quality.

Children are particularly susceptible to air pollution, which can harm their lungs and trigger asthma attacks. Flags may help faculty and staff know when to modify outdoor activities which could include shortened exercise or moving exercise indoors when necessary to protect students' health.

Getting up-to-date air qualify information is easy by subscribing to air quality notifications at http://illinois.enviroflash.info. The daily air quality forecast is sent to subscribers via email, cell phone, or Twitter.
