

# ACE

Our Automatic Cooking Equipment uses electromagnetic heating, combined with a 360 degree rotating stainless steel pot and programmable cooking settings. ACE offers repeatability and quick production of special dishes, and is suitable for catering style dishes.

## Features & Benefits

- Easily cook up to 30lbs at once with ACE's large capacity.
- ACE provides digitally-controlled, 360 degree automatic pot rotation for hands-free cooking.
- Cooking parameters can be accurately adjusted for the perfect dish, every time.
- Customizable rotation speed and heating make the most flavor for each meal.
- 3mm stainless steel offers incredible durability and longevity.
- Stainless steel and coated pot versions are both available for precise cooking needs.
- NSF Certified

## Product Specifications

<b>Dimensions:</b>	25.1 In. x 19.3 In. x 24 In.
<b>Weight:</b>	143.3 lbs
<b>Pot Size:</b>	6 Liters
<b>Pot Temperatures:</b>	Up to 680°F
<b>Pot Materials:</b>	430 Stainless Steel
<b>Pot Thickness:</b>	3 mm
<b>Body Materials:</b>	304 Stainless Steel
<b>Power:</b>	5 kW
<b>Control System:</b>	Touch Screen
<b>Display Size:</b>	5 Inch
<b>Waterproofing Grade:</b>	IPX4
