STOGO
SAFE TO GO

OUR MISSION

TO KEEP US AND OUR PLANET SAFE!

STOGO

GOT FOGO?

GOT FOGO?
FOGO [foh-go]: Fear of going out

COVID-19 has triggered an increased level of FOGO. Many have found it difficult to leave their homes without fearing for their safety.

GET STOGO!

GET STOGO!
STOGO [stoh-go]: Safe to go

We developed the world's first anti-microbial reusable glove that keeps us safe to go anywhere, any time.

WE COME IN CONTACT WITH 600 SURFACES EVERY DAY

Nearly **80%**

of malicious germs are spread by our hands and can survive for up to **3 hours**

A SUSTAINABLE SOLUTION DIDN'T EXIST...

SO WE CREATED ONE

Disposable PPE are not recyclable. Gloves and masks that are mistakenly thrown into recycling bins are putting lives at risk, as waste management employees spend more time sorting through potentially contaminated PPE.

STOGO ALL-DAY-GLOVE

Reusable fabric glove. Use for: Touchscreens, restrooms, Atm, door knobs, public transport, elevators, bike sharing and more.

- Designed according to CDC recommendations
- GRS Certified Recycled Polyester/Spandex
- Touchscreen Friendly

99% REDUCTION OF VIRUSES IN 2 HOURS
ISO18184:2019, ATCC VR-1679 (H3N2)

ViralOff
POLYGIENE TECHNOLOGY

WHOLESALE PRICE: $9 MSRP: $19.99

ALL-DAY-GLOVE

WHY THE “ALL-DAY GLOVE”?

COST & ENVIRONMENT

One pair of STOGO Gloves replaces at least 500 disposable gloves.

99% PROTECTION FROM GERMS & BACTERIA

Polygiene's ViralOff® Technology kills 99% of germs and bacteria in less than 2 hours, while keeping odors out*

BRANDING

Service industries like hotels, restaurants, and airlines can protect their employees, while staying on-brand. These gloves can be customized with logos or brand colors.

TOUCHSCREEN FRIENDLY

Conductive fingertips on thumb and fingertips allow employees to access touchscreen devices (like point of sale machines) without compromising protection.

STOGO IS 100% GREEN!

As soon as you receive your STOGO – you can rest assure that the plastic wrap it comes in, the paper packaging and the entire glove itself, has been created with recycled and biodegradable materials.

*** Polygiene ViralOff® has been tested against Influenza A, Bird Flu, Norovirus, and Coronavirus (SARS).**
