Memorial Observance For CWV Post 500

Photo By J. Koziel

Catholic War Veterans Post 500 held its annual Memorial Day Observance at Five Holy Martyrs Church. After Mass which was celebrat-

ed by Pastor Fr. Tomasz Sielicki, there was a procession to the veterans memorial where the scouts of Pack 3465 and Troop 465 served as honor guard.

Some of the veterans

in attendance were Post #500 Commander, Col. John L. Buckley, Chester Rybak (Navy), Richard Czerniak (Army), Walter Guzy (Army), Joseph Bobek (Marines), Rey Flores (Army), and Larry

Kulik (Army). The late Commander Emeritus Casey Kasper was represented by his son Mr. & Mrs. Tim Kasper.

After a prayer for the deceased military comrades whose names are engraved in the stone tablets of the Memorial Monument, F. Tomasz shared a story about an American soldier stationed in France who was spared from a night attack because he was detained and held by opposing forces earlier in the day for his Polish language skills and utilization as an interpreter.

Guests of honor were Walter Guzy and George Kwak (son, John, was present on his behalf) who served in General Patton's Army. Wally served as a parish trustee and George was elected 12th Ward Alderman. They were charter members of CWV Post 500 and FHM Holy Name of Jesus Society. A reception followed in Bishop Abramowicz Hall. Terry Brasky was recognized for the landscape development of the Memorial site.

Library Promotes Summer Reading

The Chicago Public Library will give away over one million books to children across the city during Rahm's Readers Summer Learning Challenge.

Children are encouraged to read at least 20 minutes per day and participate in STEM activities, in order to prevent the "summer slide" phenomenon, which children

can lose up to three months of math and science learning if they do not remain engaged in learning and brain stimulating activities.

The donation will ensure that children across the city have access to a diversity of reading materials so they can benefit from the positive development and growth that regular reading provides.

Qualified buyers may receive a grant for up to 7 percent of the total loan amount. For example, for a loan amount of \$250,000, a borrower could receive a grant of no more than \$17,500 to cover down payment and closing costs. Qualified borrowers are required to contribute the lesser of \$1,000 or 1 percent of home purchase price at the closing.

Home ownership a key component in investing in our 77 neighborhoods. Homeowners are the foundation in every

community that promote safe neighborhoods for families to live, play and work. I look forward to increasing the approved lenders list to ensure success of the home buyers assistance program," said City Treasurer Kurt Summers and Chairman of the Chicago Infrastructure Trust.

Buyers must occupy the home as their primary residence and reside in the property for at least five years before selling or refinancing. If the home is sold or refinanced before that time, the homeowner will have to pay back a prorated amount of the grant. After five years of on-time mortgage payments, the grant is completely forgiven.

Recently I was privileged to attend an outdoor ceremony at Evergreen Academy Middle School. John Viano, Executive Director of the Association of Illinois Middle Grade Schools, presented a second designation certificate to Evergreen as a School to Watch. They first received this award in 2010. It names Evergreen as only one of about 30 in the entire state of Illinois to receive this high honor. The Association judges the winners on their beliefs of a school that is academically excellent, developmentally responsive, socially equitable, and organizationally sound.

in Evergreen's Community Garden space. Speakers included State Senator Anthony Munoz, Alderman George Cardenas, Principal Marian Strok, and Director John Viano. The schools Rock band, The Wild Tigers, performed selections and the Class of 2016 mural was presented for the school's collection.

The program was a fine way to appreciate all it takes for one of our neighborhood schools to be honored and give community members a reason to keep their child in

our neighborhood.

I think it is also appropriate to thank two of our community principals, Mr. James Coughlin of Kelly High School,

who is retiring and, Mr. Michael Heidkamp, principal of N. Greene School, who is leaving CPS for another job in education. Thanks to both of them for their service.

CPS Promotes IB Coursework

Mayor Rahm Emanuel and Chicago Public Schools released a new analysis revealing that students participating in International Baccalaureate graduate from high school and enroll and remain in college at rates well above the city's average. Students participating in IB coursework graduate at a higher rate than that of the district's average, and enroll in college at a rate of more than 80 percent.

This latest analysis of SY 2014-15 data suggests that not only are district investments to expand the program paying off, but that these investments are supporting much of the district's recent improvements in high school graduation rate and college enrollment rate.

In addition to the stronger graduate rates

that IB programming produce, students across the District's 15 IB schools enroll in college at a higher rate, and persist at a higher rate. The rigorous IB diploma and career programmes prepare students at a higher rate, with nearly 100 percent of IB diploma participants graduating from high school, with a college enrollment rate just shy of 100 percent, and a college persistence rate of 88 percent.

Chicago the largest network of IB schools in the nation, 22 high schools and 21 elementary schools authorized to provide the programme.

Over the past five years, CPS has raised its graduation rate by more than 11 percentage points. The class of 2016 is on pace to break records with a more than 70 percent graduation rate.

Nutrient Recovery At MWRD Plant

Attorney Robert F. Kennedy Jr. and MWRD Commissioner David Walsh.

Metropolitan Water Reclamation District President Mariyana Spropoulos, MWRD Vice President Barbara McGowan, President of Environmental Advocate and Attorney Robert F. Kennedy, Jr. and MWRD Commissioners Frank Avila, Kari Steel and

David Walsh officially opened the world's largest nutrient recovery facility at the Stickney Water Reclamation Plan in Cicero.

Through Ostara Nutrient Recovery technology, phosphorus and nitrogen will create a high value fertilizer, marketed as Crystal Green.

While excess phosphorus discharged to waterways can contribute to water quality problems, it is also a non-renewable resource which is essential for life. It is estimated that there are fewer than 50 years of phosphorus reserves remaining worldwide. Most phosphorus is sourced from rock mines and must be transported considerable distances.

This renewed water stewardship will pay an instant impact on area waterways, especially in Chicago, where river walks are being constructed and recreational use of the Chicago River and area waterways has increased in recent years. Cleaned water from the Stickney Plant is released into the Chicago River and Ship Canal southwest of the Chicago River.
