On September 17, 1787 the constitutional convention in Philadelphia came to a conclusion. Many citizens started gathering outside of the convention hall eagerly waiting on final results. For while the convention was initially called just to make *amendments* to the articles of confederation and, despite the fact that there was a convention rule that held all the proceedings to be confidential and not made known to the public, it was widely known that **the 1787 convention** completely **scrapped the articles of confederation** and had **developed something entirely new**.

Amid great speculation of what new form of government had been developed, the doors opened, and the convention attendees came out now free of the confidentiality order. Famously, Ms. Powel of Philadelphia went straight to Ben Franklin and asked, **“Sir, what have you given us?”**

His response:

Many of you have heard that story before, so let's put "rubber to the road" and discuss specific action in Michigan, for the American system of government requires individual responsibility to stay informed and engaged in the governance of our State and our Nation.

There is **one key golden rule** of politics about our system of government, indeed a corollary of Franklin's statement above:

“There will be no accountability at any level of politics unless there is accountability at the electorate level”

Let us never forget that truth has a special quality. With truth, we can combat lies very efficiently and effectively. Truth does not need a dollar for dollar match. With truth you can message effectively spending \$1 to combat \$1,000 of lies.

In more than 20 years of political organizing, it has become clear to me that the **globalists have a significant weakness that grass roots activists can exploit to great impact**. That weakness is the U.S. House of Representatives and the State Legislature.

While statewide positions like Governor, Senator, etc., lend well to the utilization of globalists tools (media, endorsements, slander, etc.), seats in State Legislatures and in the U.S. House of Representatives are far more vulnerable to a grass roots campaign.

Constitutionalists elected to positions in the State House or in the US House of Representatives would be able to use the **power of the purse** to simply cut off funding to all the outrageous excesses of government. They wouldn't even have to repeal things - they could just refuse to fund them! While this may seem a daunting task, the reality is you don't even need a majority of constitutionalists in any of these legislative bodies, you just need to have enough of them to tip the balance of power one way or the other.

Let's take a look and see how the grass roots is doing in Michigan in key areas where they can be most effective:

I hope these legislative report cards hit you like smelling salt and jar you back into reality. While it is true that globalist aligned establishment republican shills like Peter Hoekstra, Ron Weiser and Ronna McDaniel Use the Michigan Republican Party to launder globalist cash and provide these bums with suitcases full of money just before the primary, the bottom line is that a organized group of patriots can overcome any obstacle they could erect in any of those seats. The reality is that you need about 300 dedicated patriots in a Congressional District. Organized correctly, they will be able to own that primary, and thus own that seat. It takes far less than that to control a seat in a state legislature.

How can we know who to work with and who we should stay away from?

Use these guiding principles to form your team:

We believe the American system of government, a constitutional Republic, is the finest ever developed by man.

We believe the traditional moral values of our Judeo-Christian heritage form the cornerstone of western civilization and that the family is the most vital unit of society.

We believe the free market system, competitive capitalism, and private enterprise afford the widest opportunity and highest standard of living for all.

We believe in the dignity of the individual. We welcome people from all ethnic racial and religious backgrounds judging others only by character and ability - as we wish to be judged ourselves - our common bond is a love for liberty and our rejection of totalitarianism under any label.

We believe that individual rights are endowed by our creator, not government; that the government's function should be limited to protecting our right to life, liberty, and property; and that individual rights are inseparably linked to individual responsibility.

If you agree with the above concepts, you are a "Bircher" so let's get organized in local chapters of the John Birch Society to start impacting your community. In this way we can still work as an organized team statewide without concern of interference from the political thugs that set out to lynch Kristina.
