

HP-54-HAS

Hand operated heat transfer press

HASHIMA®

MODEL	HP-54-HAS
POWER SUPPLY	Single phase
RATED OUTPUT	1,320W
	2,000W
MAX. TEMPERATURE	180°C
MAX. PRESSURE	200g/cm ²
DIMENSION OF PLATE	500 x 400mm
DIMENSIONS	580(W) x 870(D) x 770(H)mm
NET WEIGHT	(Approx) 50 kg
FEATURES	<ul style="list-style-type: none"> • The aluminum plate and special motor provide the work surface of the plate and assure uniform temperature distribution. • The silicon mat assures uniform pressure and printing work. • The horizontal rocking system of the pressure mechanism give uniform pressure, creating no slippage of products. • Two-step rocking handle mechanism allows easy work flow under high pressure. • Anti-friction type PTFE sheet is used for the upper press plate, providing easy cleaning.
