AL-F LED Series

Area & Site Lighting Fixture

General Description

Our commercial AL-F LED Series Area and Site Lighting Fixture provides a cost-effective replacement for existing fixtures or new installations. Designed for performance to maximize efficiency, durability and reliability. Ruggedly built with durable cast aluminum body and a power coated finish to withstand the elements.

The AL-F LED Series integrates the latest LED technology with the option to add integrated occupancy sensors or photocells. Available in a 50W or 100W configuration and may be modified to fit the customer's requirements.

Applications

Street lighting, parking areas, outdoor areas, etc.
