AUTO/ PIP ACCIDENT POLICY

In those states with no-fault insurance, persons involved in an auto accident are entitled to 100% coverage for treatment and wage loss under what is known as PIP insurance (Personal Injury Protection). More benefits may be available under the medical payment portion of your insurance. Your auto insurance cover sheet should state the amount of coverage available in this regard.

In order for this office to begin filling claims for services rendered you must complete the following steps:

1. Complete an accident report and file a copy with the police and YOUR carrier (regardless of who is at fault).
2. Provide this office with all pertinent information relating to the accident.
3. Sign the attached forms to include the assignment of benefits form. If you are or will be represented by legal counsel, your lawyer must also complete the form.

We will bill the insurance company and payment will be received directly from them. It is important to understand that insurance policies are an AGREEMENT BETWEEN YOU AND THE INSURANCE CARRIER. You are personally responsible for all charges incurred in this office. We expect payment in full when these services are rendered until all necessary information has been received and coverage has been verified. Any payment for services that the company denies or refuses to cover will become your responsibility.

I have read and understand this policy.
