1 Case = 30 Boxes

Due to the application field, there is no need for wash and care labeling. The recommendations and descriptions set herein are provided in good faith, but without any implied warranty of merchantability or fitness. Since conditions and applications vary considerably by purchaser, AMANN and its distributors do not guarantee the results or the suitability of a particular thread for any specific use or application. AMANN cannot be responsible for any damages, including consequential damages, of any kind that may result to the purchaser. The purchaser should perform preliminary testing to ensure that the thread is suitable for the desired purpose, including testing to ensure dye fastness.

How to order...Example of ordering system:
(AM+4 digit thread size/cone code)-(4 digit color code +U)
If you wanted to order a 92 size thread in a 4 oz spool (chart code AM6199) and the color you wanted was a Royal Blue (color code 8575U). The order # would be...
AM6199-8575U = size 92 Serabond thread, 4 oz. cone, Royal Blue color.
